Jeannie Gandham

Consultant | J in Motion Consulting Group

Jeannie Gandham is an executive project and program leader with more than 20 years of experience guiding complex healthcare infrastructure, digital transformation and organizational change.

She works with executive teams from early strategy and business-case development through delivery, activation, go-live and stabilization. Her strength is turning ambitious direction into executable roadmaps, aligning diverse stakeholders and maintaining focus on the decisions that create forward movement.

Jeannie is known for an inclusive, direct and outcomes-focused leadership style—and for building the governance, capability and confidence organizations need to sustain results.

Areas of Expertise
